Three Hearts Bracelet – Mother

The Three Hearts Mother Bracelet is a charming, hand-made, sterling silver bracelet with blue lace agate gems and three heart charms. The blue lace agate gem is believed to create hope, harmony, optimism, positive thinking, calm, joy and truth. This sweet bracelet is 7.5 inches in length and is perfect for your birthmother or as a gift for an adoptive mother! It is also available in child and baby sizes.

Also included is a beautiful tag with the below original poem that can be included in a memory book or scrapbook.

The Gift of Three Hearts

One heart wanted to give her baby more,
 Knowing she wasn't able to give her all.

One heart wanted to give her all,
 Knowing she wasn't able to give her birth.

One was born, given in love
 Blessing each heart every day.

Complete Idiot's Guide to Adoption 2nd Edition

The byzantine process of applying for adoption can leave even the best and the brightest feeling like an idiot. Fear not. Chris Adamec has survived the process, truly believes in it, and passes along everything she's learned in more than 15 years of writing on the subject—all in a warm, encouraging style.

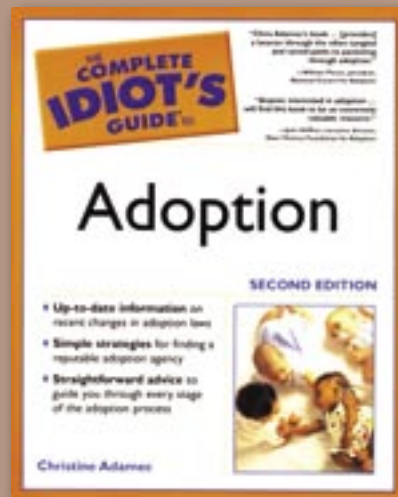

The Complete Idiot's Guide to Adoption begins with two chapters designed to help readers determine their adoption readiness by describing lifestyle changes and typical costs as well as offering a smart reality check in the form of a self-evaluation. The next section provides excellent information on adoption arrangers (agencies, lawyers, private individuals), adoption finances, laws and rights from state to state, and the increasingly popular international adoption scene. Then Adamec gets into the nitty-gritty of the actual adoption process, such as going through the dreaded home study (an evaluation of the potential adoptive family's lifestyle), dealing with birth mothers, coping with the challenges of raising adopted children, and, finally, facing a child's desire to search for his or her birth parents. An extra-large reference section includes adoption agencies, organizations, attorneys, parent groups, and more.

definitions of adopterms, family-building tips, easy-to-understand charts, and relevant statistics—all to help potential adoptive parents arm themselves with multiple winning strategies.

The Handbook of International Adoption Medicine

Since 1989, American families have adopted more than 167,000 children from other countries. Many of these children have lived in crowded conditions, sometimes with poor standards of hygiene, inadequate nutrition, and limited numbers of caregivers. Some suffer from endemic infectious diseases. Upon arrival, practitioners often fail to recognize the unique concerns of this group. This text provides an overview of the specialized medical and developmental issues that affect internationally adopted children, offering guidelines to the physicians caring for these children and their families before, during, and after adoption. The reader will learn how to advise families prior to an international adoption, how to perform an effective initial screening assessment of the newly arrived child, and how to recognize and manage developmental and other more long-term problems as they emerge.

She Who is a Birthmother (Art Print)

Suzy Toronto/
Wonderful Wacky Women

This whimsical, bright watercolor print honoring birthmothers began over a decade ago. In her own words, Suzy said, "My youngest child, Chase, who is adopted, asked me,

'Mommy, who is she that grew me in her tummy?'

I wanted to answer him, but I didn't know. I replied, "I'll draw you a picture of her." I drew "She Who is With Child" and patterned it after myself that day, right down to my untamed hair and bare feet. I left her faceless to allow him to imagine."

One Birthmother's Emotional Truth On Healing, Recovery, And Success

Courtney Frey/Adoption Press

Courtney Frey tells the path she took through betrayal, abuse, loss, and discovery. This book is a validation and emotional guide for birthmothers who, just like the author, ache for something more in their lives and are ready to embrace it.

Courtney, shares her spiritual journey, including scriptures that sustained her, intimate moments with God, her fight with faith, questions she agonized over, and finally the evidence that nothing is done in vain. Also how she overcame a haunting and painful past, a past that challenged her ability to find healing, and how she ultimately discovered purpose in it.

Our Chosen Child (Lifebook)

Parents record every milestone—from the first smile to the first day at school—in a child's baby book for posterity. Thanks to best-selling author Judith Levy, adoptive parents can now express their joy and love for a child in a baby book created especially for them.

Our Chosen Child omits the traditional space for recording details about the pregnancy, labor, and delivery, highlighting instead the special preparations adoptive parents make and the excitement and anticipation they feel.

In *Our Chosen Child*, adoptive parents can record family history and all the milestones of childhood through high school graduation. Additionally, *Our Chosen Child* includes the milestones that an adoptive family achieves. A page entitled "Waiting for You" acknowledges the many steps along the journey to becoming an adoptive family, such as completing a home study and getting references. Each page features original poetry by Judith Levy, such as this loving dedication: "You had a journey to make, A trip to come through, To parents who were praying and waiting for you." Judy Pelikan's tender illustrations grace every page, making this book a beautiful keepsake.

All adoptive parents will want to complete this treasury of memories for their own chosen child.

Featured Book – Borya and the Burps

This delightful book gently illustrates some of the confusion children feel when they are removed from the multiple caretakers and groups of children whom they know within their (often deprived) orphanages and are moved into a loving but unfamiliar new family with a sensory-enriched (but possibly overwhelming) home environment. With their whole world turned upside down, children are still able to struggle to make sense of these changes and ultimately blossom within a new family having a parent or parents who will be theirs forever.

Although *Borya and the Burps!* is one of the very first books on international adoption from Eastern Europe to be widely available to families, families who have adopted from other regions of the world may find this story valuable as well. Simple comments from parents while reading about what was the same and what was different for their child can personalize this story. Adoption of children from orphanage care does share some common themes and situations in all parts of the world and, thus, parents can share this story with their children regardless of where their child's orphanage was located.

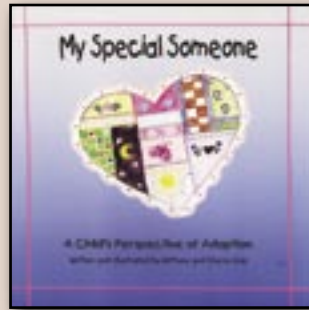

A good introduction for young, recently arrived children, this unique book will also become an often-used conversation starter for slightly older children ready to talk about their prior lives, their prior caretakers and companions, and what adoption has meant in their young lives.

My Special Someone (Book)

A beautiful full-color book for ages 2-7. This is the only adoption book written and illustrated by a 6-year-old. Brittany tells how her family adopted a baby sister into their family and describes the process from a child's point of view.

Each book comes with a bookmark with suggestions for bonding moments with your child and in the back of the book there are questions you can ask to help your child talk about the adoption as well as how the child feels about having a new sibling. There are also 10 suggestions for a smooth transition of a child into your home.

Shaoey and Dot (Book)

Shaoey and Dot: Bug Meets Bundle is an endearing tale told from the point of view of one little ladybug, Dot, who happens upon a mysterious bundle one sunny day. Dot stays with the little bundle as she is carried to the place "where babies come to be found" and promises to stay with the little one throughout her journeys toward getting a family. Written by Mary Beth and Steven Curtis Chapman, this heartwarming tale is inspired by the true story of their adoption of three little girls from China and is a story of hope and faith for all families who have been blessed by a "lost little bundle of love."

Parenting With Love And Logic (Book)

This well-known child psychiatrist has written a book to help parents raise kids who are self-confident, motivated, and ready for the world by teaching them responsibility and the logic of life by giving them the opportunity to solve their own problems from the earliest possible age.

Review:

"Parents consistently tell us they wish they had known about love and logic earlier. This common sense approach gives parents a tangible hope that they can still influence their kids."

She Who is a Foster Mother (Art Print)

Suzy Toronto/
Wonderful Wacky Women

These whimsical, bright watercolor prints honoring women began over a decade ago when Suzy's son asked her,

'Mommy, who is she that grew me in her tummy?'

Wanting to answer but not knowing much about his birthmother, she drew an image of a woman patterned after her, but left out distinct facial details to allow her son to imagine what his birthmother looked like.

She's been painting these images ever since.
